Do Not Call Register

The Australian Government established the Do Not Call Register in response to increasing community concern about the growth in unsolicited telemarketing calls to your household. Individuals can register domestic phone numbers on the Do Not Call Register website to help prevent unsolicited telemarketing calls being made to your household.

What does this mean for my relationship with Thryv?

Companies are permitted to call numbers on the Register where they have consent to do so. Consent may be express or may be inferred from an existing business relationship (unless the individual has expressly opted out from receiving telemarketing contact).
